THREE SONGS OF SUMMER.

1. Summer Comes!

O'er a land of green and gold
Summer comes— a rose in her hand—
Dancing down by wood and wold,
Follow'd by a merry, merry band—
To the faery music sweet
Grass and leaf a-dancing go,
Till the green earth throbs and swings—
With new life once more aglow!

Vale and hillside know her well—
Dear is she—the joy of their hearts—
Tears will flow that naught can quell
If their queen from them departs!
So while she is in the land
Fling all grief and care away,
In all hearts let gladness reign—
Then maybe she'll want to stay!

REFRAIN. Hare-bells, swing your censers—
Roses ope' your eyes!
Laugh, ye golden buttercups,
To the happy skies;
Birds, uplift a merry, merry song—
Winds, a joyful tune!
Summer's here—the sweet of the year,
The merry, merry month of June!

2. Upon a Summer's Day.

Within the woodland dreaming
Upon a summer's day,
With sunny arrows gleaming
Between the leaves at play—
I think the world is passing fair
And life a rose-lit way.

Within the woodland dreaming
Upon a summer's day,
When skies are brightly beaming
A little pray'r I pray—
I ask of God a blessing fair
On all who pass Life's way—

REFRAIN. Within the woodland dreaming
Upon a summer's day!
Fa, la, la, la,
Fa, la, la, la,
Upon a summer's day!

3. A Summer Thanksgiving.

In the hedgerow the roses are glowing,
On the uplands the heather bells ring—
Around me the sunshine is flowing,
Beside me the soft breezes sing!
In the azure the brown larks are flinging
Their music afar through the day,
While linnet and blackbird are singing
In ecstasy over the way.

Oh, here where life's sweetness uncloses,
I'm glad that this road I have trod—
For the birds and the wind and the roses
Have brought my soul nearer to God!
